REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present claims were rejected over the prior art of PINNAVAIA (US 6,017,632), under 102 (a), which prior art disclosed that the clay component is purified to remove impurities. The prior art of PINNAVAIA was further utilized is a 103 rejection, since it speculated that the clay can be utilized with polyamides. The third rejection was over the prior art of PINNAVAIA in view of CLEARY (US 6,050,509), which indicated the extent of the clay purification, which clay can be utilized in nanocomposites.

The applicants have amended the claims to read on specific polyamide species not taught by the prior art of PINNAVAIA or Cleary and provided declaration by MR. TIE LAN who was a co-inventor of PINNAVAIA reference that clearly indicated that the clay component of PINNAVAIA in fact does not meet requirements of the present invention. The clay component of the PINNAVAIA contains large enough quantity of impurities to render the composite non-clear. In view of the above, the pending claims are passed to issue.

The amendment to the claims also overcame the double patenting rejection of record.

The applicant is also requested to provide official drawings, which do not contain pen markings and which drawing are not photocopies.
